Objective

Driven Full Stack Software Developer with 3+ of experience in building and delivering scalable, user-focused web applications. Skilled in Node.js, React, and SQL, with a passion for solving real-world problems through innovative solutions. Seeking to leverage expertise in full-stack development and a product-focused mindset to contribute to impactful projects in a fast-paced, collaborative environment.

Work Experience

- **Frontend Engineer at SignalX** (Jul 2022 - Aug 2023)
 - Lead the development of user-centric interfaces for data-centric and client-facing applications, resulting in a 25% increase in user satisfaction.
 - Collaborated closely with UX/UI designers to translate design concepts into visually appealing and intuitive user interfaces.
 - Owned solutions from end to end, engaging directly with stakeholders to manage complexity and ensure success metrics were met.
 - Conducted code reviews for peers to ensure code quality and adherence to best practices.
- **Software Engineer at Localytee** (Aug 2020 - Jul 2022)
 - Contributed as one of the team player for the core development group in project named Question.
 - Led the development of reusable, modular components, improving project delivery timelines by 30%.
 - Utilized technologies like ReactJs, Redux, React Routers, HTML, CSS, React Native, Python, Django, GraphQL, AWS, Fast Api and websockets.

Technical Skills

- **Programming Languages:** JavaScript, TypeScript, HTML, CSS, and Python
- **Frameworks and Libraries:** React, React Native, Redux, Mobx, React Router, GraphQL, Django and Node
- **DevOps:** AWS, Docker and GitHub
- **Testing Tools:** Selenium and Jest
- **Courses taken:** Data Structure and Algorithm, Udemy Complete Web Developer and Android App Development with Java.

Personal Projects

- **Forum (Reddit Clone)** (Jun 2022 - Jun 2022)
 - Developed a Reddit clone using React and Firebase, focusing on developer experience and product quality. Implemented unit testing with Jest. A working demo could be found here.
- **Pokedex** (Apr 2022 - Apr 2022)
 - Built a Pokémon search app using React, SCSS, and Material UI. Implemented MobX for state management and incorporated API interaction with PokeAPI. A working demo can be found here.

Academic Qualifications

- **Postgraduate Certificate in CyberSecurity** (Sept 2023 - Aug 2024)
George Brown College, Canada
- **Bachelor's in Computer Science** (Aug 2016 - Dec 2020)
Yogananda College of Engineering and Technology, India

Presentations and Publications

- Presented review paper titled “**Pattern Recognition; Approaches and Applications**” at 1st International Conference on Advancement in Engineering Sciences organized by School of Electronics and Communication Engineering, SMVDU, Katra. (Sept 2019)
- Presented review paper titled “**Artificial Neural Networks; Latest Trends and Their Comparative Analysis**” at 1st International Conference on Advancement in Engineering Sciences organized by School of Electronics and Communication Engineering, SMVDU, Katra. (Sept'2019)

Extra-Curricular Activities

- **Superprof Ambassador:** Provided global programming mentorship (2023)
- **Upwork Freelancer:** Contributed to various projects in web and software development (2023)
- **Internet of Things Workshop:** International Center for Advanced Research and Studies, Delhi (2020)
- **Best Project Award:** RISE-2020 International Conference, YCET. (2020)
